

Dear CSP Conference Participant:

On behalf of the Organizing Committee for the International Executive Conference on Expanding the Market for Concentrating Solar Power, I would like to thank you for your participation in the conference and in the Discussion Groups that helped to refine the CSP Global Market Initiative. Your presentations, comments and suggestions were valuable input in this process. We hope that you found the conference to be a worthwhile and rewarding event, and that you enjoyed your time at the Rancho Las Palmas.

A small working group is revising the text of the Global Market Initiative and will distribute it as soon as it is ready. We would be pleased to see you in Bonn at the International Conference for Renewable Energies taking place 1-4 June 2004 where we plan to continue to promote the Global Market Initiative to policy makers. We will keep you informed of our success with this phase of the Initiative.

Enclosed please find a CD that contains the final conference materials, the draft Global Market Initiative, the findings of the Discussion Groups, a complete set of the speaker's presentations, and some pictures from our visit to the Kramer Junction site.

Please note that the file titled "05 Conference Proceedings" contains all of the speakers' presentations. To more easily access a particular presentation, you may use the "Bookmark" on the left side of the PDF and click on the area you would like to view. If the Bookmark area is not visible on the left side of the PDF, go to the task bar at the top of the document, open the "Window" drop down menu and select "Bookmark." If you would like to view an individual presentation within a session, you may click the "+" next to the session and a list of presentations will show below the session.

Best regards,

A handwritten signature in dark ink that reads 'Fred Morse'.

Fred Morse  
Conference Organizer
